

Pettis County Commission
Pettis County Courthouse
415 S. Ohio
Sedalia, Missouri 65301

Dear Pettis County Commissioners,

I am a resident and voter in Pettis County.

I am very concerned about the health, safety, and environmental problems caused by the current landfill. These problems include the terrible odors, dust emissions, the health effects on nearby residents, and the number of trash trucks along the roads.

These problems will only get worse if a second and even larger landfill goes in along 50 Highway west of Sedalia.

I know the Missouri DNR regulates landfills, but the Pettis County Commission has the power under section 260.215, Revised Missouri Statutes, to impose local county regulations over landfills. These local controls can be more stringent than DNR regulations.

Please adopt a Pettis County Solid Waste Ordinance to impose reasonable regulations on new landfills in Pettis County.

If you are unwilling to adopt a Solid Waste Ordinance yourselves, then please put the issue on the ballot in November 2021 for the voters in Pettis County to decide if they want to have a Solid Waste Ordinance in Pettis County or not.

Thank You.
